

Original Functions Programming

```
7 //=====
8 //Original node functions
9
10 //If you don't need initialize node, you can delete this code segment
11 ⊖ NODE_FUNC_DEF_EXPORT(bool, initializeNode)
12 {
13     return 1;
14 }
15
16 //If you don't need manually open node, you can delete this code segment
17 ⊖ NODE_FUNC_DEF_EXPORT(bool, openNode)
18 {
19     return 1;
20 }
21
22 //If you don't need manually close node, you can delete this code segment
23 ⊖ NODE_FUNC_DEF_EXPORT(bool, closeNode)
24 {
25     return 1;
26 }
27
28 //This is original main function, you must keep it
29 ⊖ NODE_FUNC_DEF_EXPORT(bool, main)
30 {
31     return 1;
32 }
```
